## **Bed Bug Service Checklist for the Client** **Customer Responsibilities**

- ✓ Vacuum floors using crack and crevice tool along the base of the wall.
- ✓ Vacuum the seams and general surface area of the mattress. If sofa contains a fold out sofa bed, it must also be vacuumed. Vacuum the seams and general surface area of all cushions from sofa and chairs. Remove cushions from sofas and recliners.
- ✓ Remove vacuum cleaner bag, seal and discard outside of the home immediately.
- ✓ Remove any items that are mounted to the walls i.e. pictures, mirrors, but do not remove from the room as these may need treatment.
- ✓ Remove clothing in dressers and linens from beds these should be bagged and washed in hot water or dry cleaned. Wash clothing and bed linen in hot water and at least 20 minutes in clothes dryer. These items should then be stored in an air tight garment bag.
- ✓ Remove all items from closets.
- ✓ After treatment mattress should be covered with a waterproof, zippered mattress cover labeled "allergen rated".
- ✓ Do not remove any items of furniture from the room.
- ✓ Eliminate clutter in infested areas to reduce hiding places for bed bugs and make treatments more effective. Because these bugs like to hide in small cracks, stacks of clothing, paper items and corrugated cardboard are likely hiding places.

\_\_\_ I have received, read and understand this check list needs to be completed prior to the next scheduled service appointment.

\_\_\_ I understand that due to the biology of Bed Bugs, they will not be eliminated in one treatment and it may be necessary to extend the services.
